THE GEOGRAPHY DEPARTMENT – SHREE AGRASEN MAHAVIDYALAYA

The department of Geography, Shree Agrasen Mahavidyalaya, Dalkhola started on 3 August 2016, with my joining in the college on the same day. I, Sushrita Bhakat, present SACT teacher joined this department as a guest teacher and it was my responsibility to prosper the department as I was the only teacher at that time. Then it was three years (1+1+1) general degree courses and gradually semester based CBCS system has started in 2019. At first there were 3 students in the department and gradually the number has increased with time.

Now, still the day I am the one and only teacher in geography department. At the beginning there was no such collection of books on geography, but with time I step forward to collect valuable books, and at present there are above 100 books relevant to courses. I also collect important instruments and SOI maps relevant to practical courses and the department has enriched time to time. My main goal is to enlarge the department, a well decorated laboratory to inspire the students and to increase the number of students so that honours courses can be started in future.

There are no such co-curricular activities in the department and no departmental seminar/webinar and special lecture has conducted yet because of minimum no of students, but our goal is to focus on that issue particularly so that we overcome this and can arrange some valuable lecture and seminar on related topics.
