## **Our Outcomes:**

In brief, there are three students in the first semester Major course of Sanskrit Dept. Where we had a meeting regarding their course work, internal assessment and academic facilities they access in college. Primarily, they are serious about their academic course and career. However, it is also noticed that they are irregular sometimes because of the two reasons; firstly, financial source and secondly, travelling the long distance from home to college. They are planning to do M.A with same subject Sanskrit in order to get admission in university in archaeological department.

- 1. To know the fact of irregularities of students in the class.**
- 2. To understand seriousness about education of children.**

Dipanjan Chakraborty  
Department of Sanskrit  
Shree Agrasen Mahavidyalaya

**Outcomes:**

After having an hour meeting with guardian of students it came to know that guardian are serious about career of their respective children and they encourage them at home. Some of the important points also raised by guardian like, their small financial source, canteen facilities of college and transport communication by which students suffer in travelling from home to college. In despite, they also expressed their opinion about college where they mentioned they liked the college environment and infrastructure.

## Outcomes:

In guardian and faculty meeting, it came to know that guardian encourage student for study at home. There is only one guardian of fifth semester who eagerly requested to minimize the tuition fee in college. He also mentioned that his wife as student access library facilities in the college properly. Importantly, he happily expressed that his wife student could understand Sanskrit very well. Regarding poor attendance, he mentioned that wife student has to face travelling issues.
